What is Enrichment & Why is it Important?

Enrichment provides pets with opportunities to engage in species-specific behaviors, which is essential for their mental and emotional well-being. Studies have shown that enrichment can reduce stress, improve behavioral health, and enhance overall welfare in animals. Dogs provided with cognitive enrichment show fewer signs of anxiety and are more adaptable to new environments.

At Brookwood, enrichment might include scent work, nature walks, 1:1 staff time, treadmill runs, or calming lick mats—all designed to support your pet's mental health and make their boarding experience more positive and fulfilling.

Which Dogs Will Benefit Most From Enrichment?

The short answer? All of them! Enrichment isn't just for high-energy or anxious dogs—every dog benefits from mental and physical stimulation. Puppies, seniors, working breeds, couch potatoes, and everything in between can all enjoy and thrive with enrichment activities. It helps build confidence, reduce stress, and keep their minds sharp during their stay. Whether your dog loves sniffing, licking, fetch, running, or exploring, there's an enrichment option they'll enjoy!

How Do I Add Enrichment to a Boarding Stay??

Adding enrichment to your pet's boarding reservation is easy! You can select it right in MoeGo when you book online, or give us a call and we'll be happy to add it for you. Forgot to add it ahead of time? No problem—you can also request it at drop-off. We want every pet to have a fun, fulfilling stay, and enrichment is a great way to make that happen!
