BROOKWOOD NEWS

Here Comes Summer!

Longer days, warmer weather, and plenty of sunshine—summer is right around the corner! It's the perfect time for more outdoor adventures, fresh air, and soaking up all the fun this season brings.

With the change in seasons, you may notice your dog has a little extra energy (and maybe a bit more mud to track in, too). Spring and early summer are full of new smells, sights, and stimulation, which can make for some very excited pups.

We're looking forward to all the happy, busy days ahead and can't wait to spend the summer with your dogs—whether they're here to play, stay, or just burn off some of that extra energy!

Book Now

Memorial Day weekend kicks off the busy summer boarding season, and spots fill up fast—especially on weekends and holidays.

If you have any upcoming trips, we highly recommend booking as soon as possible. We're full most weekends in the summer, and we hate having to turn anyone away.

When booking, don't forget to add on some extra fun! We offer flirt pole and treadmill exercise, nature walks, the scent space, 1:1 staff time, pup cups, and special treats. You can request boarding stays and add-ons through MoeGo, by emailing brookwoodresort@aol.com, or by calling us directly at 603-783-4040.

Parasite Prevention

As the weather warms up, fleas, ticks, and other parasites start to make their return. Even if your dog isn't spending a ton of time outdoors, they're still at risk—especially with more walks, yard time, and time in grassy or wooded areas.

Keeping your dog on a regular flea, tick, and parasite prevention plan is one of the easiest ways to protect their health. These pests are more than just annoying—they can carry diseases that may cause major issues for your pet.

If you're not sure if your dog is up to date, now's a great time to check in with your vet and make sure they're covered for the season ahead.

Grooming Tip

If it feels like your dog is suddenly leaving fur everywhere—you're not imagining it. Spring shedding is in full swing as dogs start to lose their winter coats.

Regular brushing can make a huge difference in keeping your dog comfortable and helping cut down on all that extra hair around your home. It also helps prevent matting and keeps the skin healthy as the coat changes.

It's also a great habit to brush your dog after they've been outside—this gives you a chance to check for ticks and anything else they may have picked up along the way.

A little extra maintenance this time of year goes a long way—for both you and your pup!

Cat Boarding

Our cat boarding area is designed to give your cat a calm, comfortable space of their own. Cats stay in a separate room away from dogs, helping create a calm, low-stress environment.

Each cat has their own private lodging, with litter boxes cleaned daily and meals provided as needed (at least twice a day). We do our best to keep your cat's routine consistent so they feel right at home.

Throughout the day, cats have time to come out and explore the room—either on their own or with other cats from the same family. The space is set up with a cat tower, cozy hideaways, scratch pads, and an assortment of toys to keep them entertained. We also offer fun extras like catnip and flirt pole play for a little added enrichment when staff has free time.

Whether your cat prefers to lounge, explore, or play, we make sure they have a safe and comfortable stay with plenty of attention and care.

BROOKWOOD NEWS

Meet a shift leader: Jess!

It's truly wonderful to be back at Brookwood—it honestly feels like coming home. I first joined the team in October 2020, took a brief break from December 2021 to December 2022, and have been a dedicated member ever since.

What I love most about my work is building genuine connections with both our animal guests and their owners. Creating a safe, nurturing environment where pets can feel secure and grow in confidence is incredibly rewarding. While I always enjoy the excited greetings from our regulars, nothing compares to seeing a shy, nervous pet come out of their shell and learn to trust. The relationships we build with our clients are what make the Brookwood community so special. Animals have always been a huge part of my life. At home, I have dogs, a “clowder” of cats, and even a chinchilla. Over the years, I’ve cared for many different animals—from sugar gliders to rabbits and more.

A fun fact about me is, a lot of my childhood was spent growing up on my Grandparents apple Orchard. This is where I found my love for nature and animals.
